PRIZE MEDAL, CLASS B.
HIGH-PRESSURE VALVE COCKS.—LAMBERT'S PATENT.

These Cocks have, during the last five years, been extensively and most successfully used in mains Towns under constantly high pressure, varying from 100 to 300 feet; their unsurpassed durability is by experience established.

The Equilibrium Ball-valve is simple and certain in its action, and is cheaper than any convenient Cocks now in use.

Improved Iron, self-closing, and other closets, upon approved principles, constantly on hand for public buildings, cottages, mansions, &c.

THOMAS LAMBERT and SON,
Brass and Iron Founders, Brass-cocks, Newport, Lambeth.

STOCK & SON'S SOIL-PAN SERVICE BOX.

The object of this useful apparatus is to facilitate the introduction of sanitary improvements into the dwellings of the working classes, by the adoption of such an arrangement of cheap soil-pan apparatus as will enable the "constant supply system" of water service to be made available for the removal of the refuse, by providing the necessary means of water in places of this description, to which water companies now so strongly and so properly object. By the use of this apparatus

an ample supply of water is obtained, without the necessity of the plumber's work, by proposing the main, supplying the trade, or by other measures; and in case of a stoppage in the drain-water remains open, a further supply cannot enter the service from the main. Drawings and Lists may be obtained from STOCK and SON, Manufacturers of Plumbers' Brass-work, Self-closing, Rotary Screw-down Taps, Fire Plugs, Lion Pattern, and Chamois Furnishers in Iron and Brass, Temple-street, Birmingham.

PRIZE MEDAL AWARDED TO PEAKE'S
TERRO-METALLIC TILES, PIPES, &c.

ILLUSTRATED TRADE LISTS, containing much information useful for reference; also unsolicited testimonials respecting a MATERIAL which, when well wrought, is decidedly superior to every other for drains or conduits, for tiles, slips, valleys, and every part of roofs, for plain or chequered floors, for paving mill-stones, or strong and durable pavement in most other purposes, may be had gratis by THOMAS PEAKE, Manufacturer of Terro-metallic Goods, No. 4 WHARF, CITY-ROAD BASIN, LONDON; and at THE TILERIES, TUNSTALL, STAFFORDSHIRE. The lists contain both prices by number, and approximate cost by measure. It is solicited that letters be prepaid, and state if Bedfordshire or London prices are wanted. Specimens were at the GREAT EXHIBITION, Class 27, No. 118, during, been at from 1s. 1851.

REDUCTION of PRICE in UNGLAZED DRAIN PIPES.

Manufactured by CHAS. FRANCIS and SONS, NINE ELMS.

These prices in future will be,

3in. 6d. per foot	Barrels 3 feet long	
4in. 5d.	"	4 "
6in. 8d.	"	9 "
9in. 1s.	"	12 "
12in. 1s. 6d.	"	15 "

These pipes are made under steam pressure, and burnt to great hardness, and are capable of bearing nearly double the hydraulic pressure of ordinary glazed pipes. The prejudice against red-ware is overcome by this manufacture. And it is well known that good Red-ware, UNGLAZED, is the oldest material discovered in a perfect state in Roman, Babylon, Pompeii, &c. &c.

Agent for Southampton, R. L. PIATDER, American Wharf.

JOHN DOULTON, JUN.

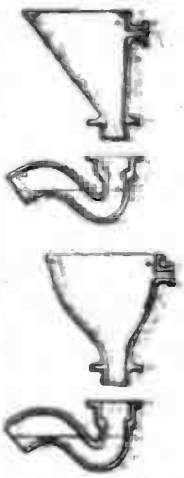
REGISTERED CLOSET PANS IN

ENAMELLED STONE WARE,

LAMBETH POTTERY, LONDON.



These Closet Pans are manufactured in a new kind of stone ware, HIGHLY GLAZED, vitreous, of a light colour, are much improved in form, and are used and recommended by the engineers connected with the General Board of Health.

The Traps are smaller at the inlet, gradually enlarging towards the outlet, so as to certify against the introduction of improper substances into the drain.

They may also be had turned down.

PRICE 7s. 6d. EACH.

The same as for ordinary stone ware, and may be had fitted with copper pans of the best construction at 1s. 3d. each extra.
